

Stirling Centennial Celebrations Greatest in History of Village

Special Church Services
Marked Opening, Followed
By A Drumhead Service

Ideal weather conditions and a spirit of good fellowship — plus excellent planning and hard work by those in charge — combined to make Stirling's four day Centennial Celebrations the outstanding event in the history of the Village.

Thousands, including expatriates, sons and daughters, attended the numerous programmes which started Sunday with religious services in all village churches and ended with a midnight shirt-tail parade on Wednesday.

Special Church Services
Sunday saw the centennial get under way under brilliant weather conditions with special church services, a Canadian Legion drumhead service and armed forces parade, with a garden party in the afternoon under the auspices of the Hon. J. R. Cooke Chapter I.O.D.E. and an evening band concert by a Salvation Army Band.

Local churches were filled with congregations and a large number of visitors from far and near. Sermons were in keeping with the occasion, urging all to remember the benefits they were today receiving through the efforts and foresight of those who lived here 100 years ago.
At St. Paul's United Church, Hon. Sidney E. Smith, Secretary of State for External Affairs, and M.P. for Hastings-Frontenac, was the guest speaker at the service conducted by Rev. A. Packman. Special music included "Angel Voices" by the Junior Choir and "Trust in Him Always" by the Senior Choir. Rev. J. V. Holt read the Lesson.

At St. Andrew's Presbyterian Church, Rev. W. H. Walker conducted the service and Miss Frieda Matthews, Executive Director of National Missions of the Presbyterian Church in Canada, and a former member of St. Andrew's, spoke to a capacity-filled church. The choir rendered an anthem, "Rejoice Give Thanks" and Mrs. Walter Warren and Mr. Wm. Reynolds sang a duet, "Love Divine All Love Excelling." Mrs. Harry Morrow presided at the console of the organ.

Rev. C. C. Brazill, rector of St. Edmund The Martyr Church, Toronto, and a former rector here, gave the message at St. John's Church. Rev. R. Gale conducted the service.

Drumhead Service
Legionnaires, hundreds strong, rallied for a special Centennial Drumhead service at the high school grounds. High-ranking Legion officials participated, as well as the Legionnaires from Stirling (the host branch), Peterborough, Bowmanville, Belleville, Trenton, Marmora, Madoc, Tweed, Frankford and members of the Hastings and Prince Edward Regiment.

Hall Dedicated
Prior to the service the new Legion Hall was dedicated followed by a wreath-laying ceremony at the cenotaph and a parade through the Village.

Hon. Sidney Smith, Secretary of State for External Affairs, spoke briefly at the Drumhead service. He congratulated Legionnaires on their fine turn-out and paid tribute to their fallen comrades. Mr. Smith marched in the parade with Elmer Sandcock, Senator George S. White and other dignitaries.

Henry Harvey, past provincial chairman of the Canadian Legion, represented Dominion Command. Dominion President Dave Burgess was not able to attend.

In his message to the Legionnaires and hundreds of villagers, Mr. Harvey asked them to remember those who did not come home after the war. Face the future with optimism, he said, and keep the Legion strong.

Scotty Broughton, regional vice-president, urged the young men present to help keep Canada strong and free by joining the militia.

Major A. S. McConnell, chaplain of the Hastings and Prince Edward Regiment, recalled some of the history of the village, its citizens and their achievements during time of war and peace. He, too, said the future should be faced with optimism.

Senator George White, of Madoc, and Dr. A. Packman, of St. Paul's United Church each spoke of the sacrifices residents of the village and Canadians as a whole made during past wars.
Music for the parade was furnished by the Hasty Pees Band, Bowmanville Klitte Band and Campbellford Citizens Band.
The salute at the reviewing stand in front of the Library was taken by Lt.-Col. Angus Duffy and Henry Harvey, Past Provincial President.

Engagement
Mr. and Mrs. Aaron Anderson announce the engagement of their daughter, Betty Marie, to Douglas John Cranston, of Belleville, son of Mr. and Mrs. Earl Cranston, Harold, Ontario. The marriage will take place on September 6th at 2:00 o'clock in Rylstone United Church.

Garden Party Sponsored by I.O.D.E. Sunday Afternoon

Members of the Hon. J. R. Cooke Chapter I.O.D.E. played hosts to hundreds of former residents and their friends at a delightful Garden Party Sunday afternoon on the grounds of the United Church and the High School. The party set the pace in friendliness and happy memories for the four-day celebration and the members of the I.O.D.E. are to be congratulated on their efforts.

Mrs. H. Wood, Regent of the local Chapter, and Mrs. Edwin Warren, Vice-Regent, along with Mrs. Earl Luery, Past Honourary Regent, and Mrs. H. C. Martin, Honourary Regent, received the guests, who met their old friends and enjoyed a cup of tea and light refreshments.

Music for the occasion was provided by a group of bandmen, under the direction of Maurice Bell.

Mrs. Gena Spry and Mrs. Jack Wetherill were in charge of the guest book where dozens of folk signed their names with visitors from many places.

Those who poured during the afternoon were: Mrs. H. G. Harvey, of Ottawa and the following Stirling ladies: Mrs. Bruce Bell, Mrs. Earl Green, Mrs. Robert Burgess, Mrs. Russell West, Mrs. H. C. Martin, Mrs. Earl Luery, Mrs. J. V. Holt, Mrs. Kenneth Ray, Mrs. Lindsay Pollock, Mrs. H. R. Tompkins, Mrs. A. Packman, Mrs. William West, Mrs. H. Wood, Mrs. Ed. Warren and Miss Rosa Spry.

Ken Ray Elected To Advisory Board

Congratulations are extended Ken Ray, owner of Stirling Machine Shop, who has been elected by the Cockshutt dealers Block 1, to the Smiths Falls Branch Dealer Advisory Board. Ken has been a Cockshutt dealer in the Stirling district for many years and is a valued member of the Village Council.

Celebrants Enjoy "Memory Day"

Good weather and pleasant memories combined to make Tuesday a happy time for visitors to the Stirling Centennial celebration.

They came for the "day of memories" and gathered at the High School to reminisce with old classmates — many of whom they hadn't seen for years — about old times at Stirling Youth and High Schools.

They were welcomed by James Johnston, chairman of the High School Area Board, and Mrs. Johnston and Mr. and Mrs. Buttner Belshaw. Principal John L. Good acted as chairman and brief messages of welcome were given by the principal and by Messrs Johnston and Belshaw.

Scholarships
Mr. W. K. Bailey, Toronto, paid tribute to a past principal, Mr. George E. Kennedy, and outlined the idea of "A Stirling High School Scholarship" which would assist students attending Teachers' College and University.

Others speaking on this theme were Neil Bissonette, Arthur Morrow and George McIntosh.

It was decided by the group to carry out this plan and a committee of Principal Good, W. K. Bailey and Mr. McGuire were appointed to draft the plans, while local staff members took the names and donations at the close of school.

Robert Patterson led in singing "The Old Gray Mare" and "School Days" with Charles Allen as pianist. Beginning in 1891 and ending in 1958 the various groups stood as the years of their attendance were called. The two oldest students were Miss Della Caldwell and Mrs. Helen David, nee Madge Williams of Mount Pleasant.

Miss Barbara Woodbeck brought greetings from the 1958 students and in between those years there were several who brought greetings and paid tribute to the teachers.

Several of the former teachers included Mrs. Grant Thain (nee Betty Burch), Messrs. W. K. Bailey and John Munro, spoke briefly; also Miss W. Hay, Mrs. Gordon Bailey (nee Miss Kay Mundy) and Mr. Hay Ellis brought greetings from the 1958 staff.

Mr. K. C. Gilles, Principal of Stirling Public School, invited the group to "open house" that afternoon.

Thousands of people, representatives of every part of the district flocked around, converged on this Village on Monday, August 11th, to witness the largest parade in the history of the area. Even the organizers were surprised by the turnout. Traffic was tied up on all the streets and roads leading into the Village.

The parade alone had over fifty floats, depicting various stages of progress over the past one hundred years. In addition there were bands and majorettes, bicycle riders and pony-drawn vehicles.

The parade, which was under the direction of Graham Mouck and Chas. F. All the side streets were packed with cars and the parade route was lined with people, three and four deep in places, and there was a sea of faces in all directions.

It took forty-five minutes to pass a given point and the judges were Mrs. Walter Elliott, Mrs. Gordon W. Bailey, and Messrs. Wm. C. West and H. C. Martin.

A small wagon depicting a Canadian grave in Holland, with the inscription "They Gave Their Tomorrow For Our Today," was drawn by two of the Kuenig boys. A silver tray was the prize.

Second prize, a silver tray, went to the Hon. J. R. Cooke Chapter, I.O.D.E. and the third prize, also a silver tray, to River Valley Women's Institute.

Mr. and Mrs. Ken Matthews Honoured By Communities

The Orange Hall at Wellman's was crowded to capacity recently when the communities of Wellman's and Burnbrae united to honour Mr. and Mrs. Kenneth Matthews on the occasion of their recent marriage.

Mr. Craig Watson very ably performed the duties of chairman and opened the programme by leading in community singing with Mrs. Craig Watson at the piano. This was followed by a solo on the piano accorded by Mrs. Harold Linn.

The Tompkins family contributed a musical number and Mrs. Gordon Foster and Mrs. Fred Beckett rendered a duet, accompanied by Mrs. Lorne Watson. Miss Ann Watson sang a solo, accompanied by her mother, Mrs. Lorne Watson. Misses Joyce and Joan Cotten and Carol Beckett gave a trio, accompanied by Mrs. Fred Beckett. A duet was sung by Brenda and Arnold Matthews with Sharon at the piano.

Several selections were rendered by a quartette composed of Mrs. George Watson, Mrs. Jim Pollock, Mrs. Ken Tompkins and Mrs. Lorne Watson, accompanied by Mrs. Fred Beckett. Mrs. Craig Watson and Miss Sharon Matthews each contributed a piano solo and Miss Betty Linn a tap dance number. Humorous readings were given by Mrs. Jack Dunham and Mrs. Murray Meiklejohn.

Ken and Annie were then called to seats of honour on the platform. Miss Janet Tompkins read an address in which she spoke of the many years of friendship which had been enjoyed with both the young people and asked them to accept the gifts from their friends at Wellman's and Burnbrae. They were then presented with a beautiful walnut extension table and four matching chairs, a picture and centre piece by James Rainie, Don Walker, Jack Dunham, Keith Clancy, Doug Cotten and Harold Linn. There was also displayed on a table a number of individual gifts from friends.

Ken and Annie both expressed their appreciation for the lovely gifts and asked their friends to visit them in their new home at Baltimore. All sang "For They Are Jolly Good Fellows" and lunch and a social hour concluded the evening.

St. Paul's Notes

(By Rev. A. Packman)

The services on Sunday for the next few weeks will be held — Carmel at 9:45 a.m. and St. Paul's at 11:00 a.m.

Our Stirling Centennial service at St. Paul's was, as we expected, a most happy occasion with the church full to overflowing with about 150 persons either in the School room or on the lawns outside. Dr. Sidney E. Smith, P.C., Secretary of State for External Affairs, occupied the pulpit and brought to us an inspiring message. We hear from Dr. Smith that he very much enjoyed his visit.

The crowning feature at St. Paul's was the remarkable and generous lunch provided by the ladies of the church. It is seldom that a turkey dinner is arranged on such occasions. The ladies fed some 350 persons and for this there was no charge made. It was a wonderful gesture and will go down in the records as such. We are grateful to Mrs. R. A. Patterson and her helpers.

On this same Sunday the flowers were lovely. They were placed in memory of Mr. and Mrs. Thomas

Montgomery and Mr. and Mrs. Samuel Patterson.

The afternoon arrangements by the local I.O.D.E. group were excellent. It was a good sight and an enjoyable sea that was provided by this group on the lawn at St. Paul's and the band, led by Mr. Maurice Bell, was at its best. We noticed that the band concert ended with "God Be With You Till We Meet Again." A fine touch.

A Traveller's Note Book

What we have to say this week deserves a sub-title, it might be "Notes and Half Notes." The many notes of high praise regarding the Stirling Centennial have been sounded. The Centennial meantime has slipped into history together with the many wise cracks referring to the next Centennial, such as "include me out." Well, it is a solemn thought, it will include everyone of us out.

We thought our Centennial was carried through most bravely, there was little or any trouble and there was a whole lot of hard work done to make it the success it was.

Crack The Safe but spare the lock. A gentleman having suffered from the visit of unfriendly persons while he was away from home tells us that the

only thing in the house that was smashed was locked. It appears the police do not know quite what advice to give this sufferer. If they tell a householder to lock everything up, including the inside doors, a mere sneak thief is likely to give up and go away without any loot. On the other hand, a more determined kind of burglar will in such a case do five times as much damage as he would if everything is left open. I scratched my nut on hearing this and came up with the only advice I know — have nothing worth stealing. Tell the Income Tax people the truth, this will assure the former proposition. Don't possess valuable silver, it's too much trouble to clean anyway. Don't leave jewellery about, and then if the burglars take your clothes it will be quite pleasant to get a new suit of clothes from the insurance company. This is about the only way to win.

Where will the U.S.A. put the 49th Star? I am advising my friends to invest in the Stars and Stripes, or at least, in a company making that flag. I'm pretty sure that this is an original thought, one gets one about twice in a lifetime. This is my first. I think it is a good one.

That Alaska, a nice chunk of Canada some hunk gave away, is about to become a State. Considering that

it is about 585,000 square miles in extent and so twice as big as Texas which is a good deal larger than France, it's a sizable gift. That it has the smallest population, 128,000 by the 1950 figures is not important, it's the size and position that matters. Now one wonders, why are the Americans being so friendly to this small number of people? Of course, making Alaska a State does get rid of the Colonial touch, but it looks mighty like a colony just the same.

Rev. D. Luck, a missionary teacher at a school in Amritsar, India, was the guest speaker at the camp. He spoke to the A.Y.P.A. members of his experiences in India and the customs of the Hindu religion in the area in which he has taught.

Belleville's St. Thomas Church walked off with the Camp Hyanto Swimming Trophy. On Monday afternoon four boys conquered Lake Lyndhurst as they swam the two and a half miles around the lake in a little under an hour.

The new executive will meet for the first time in Belleville on September 7th. At that time the new conveners will be appointed to fill the posts left vacant by the retiring executive.

The programme included several campfire sessions and sing-song periods.

One thing can be said for people who live in the past. They can do it cheaper.

Here are the

FACTS

about exchanging your 3% wartime Victory Bonds

1. What is the Canada Conversion Loan of 1958?

It is an offer to replace all unmatured 3% wartime Victory Bonds with new 25-year 4½% Canada Conversion Bonds. (Other bonds of shorter term, bearing interest rates of 4¼%, 3¾% and 3% are also available.)

2. Why is the Government making this conversion offer?

In order to reorganize the national debt on a longer term basis and thus reduce the volume of Government refinancing over the next few years. There is widespread public and business agreement that this is a sensible idea and will help protect the soundness of the Canadian dollar.

3. What interest will I receive on the new bonds?

On the 25-year bonds the interest rate is 4½%—this is 50% greater than the old Victory Bond rate. The increase on the 14-year and the 7-year bonds is also substantial.

4. As a Victory Bond holder, will I be required to make any additional payment?

No. On the contrary, you will receive an immediate cash adjustment.

5. Do I have to convert my Victory Bonds?

You may, if you wish, hold your Victory Bonds until maturity and on the due date you will be paid their full face value. The Conversion Loan offer is open only to Victory Bond holders; and the "right" to convert gives Victory Bonds a special value until the offer expires. This is because there are many people trying to buy them in order to invest in the new bonds.

6. What will be the total of my cash adjustment?

It will depend on the type of exchange. For example, a \$500 8th Victory Bond exchanged for a \$500 Conversion Bond paying 4½% will give you \$8.75 in cash immediately. This includes earned interest.

7. Does this offer apply to Canada Savings Bonds and other Government of Canada Bonds?

No. This offer is limited to unmatured wartime Victory Loan Bonds only.

8. What steps should I take if I am away from home on vacation and wish to take advantage of this offer?

You should write immediately to your bank, investment dealer, stockbroker, trust or loan company, requesting literature and application forms.

9. Does it matter that the Victory Bond I hold is very small?

Every holder of a Victory Bond, even though the amount held may be only \$50, should take advantage of this offer. It is in his best interests as well as in the best interests of Canada.

10. How long is this offer open?

Until September 15, 1958, but it is to your advantage to convert as quickly as possible and have the benefit of the immediate cash adjustment.

11. Where can I exchange my Victory Bonds?

At any bank, investment dealer, trust or loan company, or through your stockbroker.

In Memoriam

HEATH — In loving memory of our dear mother, Agnes McConnell Heath, who passed away August 10th, 1957.

'Tis sweet to know we'll meet again
Where troubles are no more,
And that the one we loved so well
Has just gone on before.
A memory lives not just for a day,
Or as a dream to pass away.
Loving memories hold off the tears
And lingers on throughout the years.
Resting where no shadows fall,
In perfect peace she awaits us all,
God will link the broken chain
As one by one we'll meet again.

—Always remembered and sadly missed by her family, Mabel, Clinton, Louise, Blanche, Roy, Dorothy and Blake. 29-1

OF MANY THINGS

(By Ambrose Hills)

BE FREE

I have a friend who is a slave. He has earned freedom, but squandered it. And I am afraid he will be a slave until the day he dies.

He has made very good money in his day, but spent it foolishly. When others were buying Victory Bonds, he felt quite smart because he sold his as soon as he got them. He was a selfish spender, last to pick up the check in a restaurant, but first to buy every new gadget for himself. Today, he is paying a high price for his selfishness.

The other day a few of us planned a fishing trip; but our spendthrift friend could not join us. "I'm broke," he said, "and I sold my fishing gear over a year ago."

I had a long chat with this man last night. It was a sad story of mismanaged funds, impulse buying, lack of investments either in bonds, or indeed, in friendship. He had spent none of his resources on others and consequently there weren't many people ready or willing to help him.

He still has his job, but to him the future looks grim — as soon as he gets his cheque, his creditors are after him. Or he has kited cheques he must cover. Yet he still feels that if he could get one more big loan to "consolidate" his debts, he would be

all right.

I felt sorry for him, but irked with him at the same time. Even yet, if he settled down to it, he could be free from debt and on the road to independence within less than two years. And to do so he would not have to deprive himself of any of the real necessities of life.

What is the basic trouble with this man? I think the trouble is that he does not love freedom. He does not value independence. His cheque is merely the passport to satisfaction for his daily whims or appetites.

Freedom is a precious thing. That's what many of us work for, one of our great incentives. Every child should have instilled in him the love of freedom, just as every nation should strive to be free. It is work passing up a few present luxuries in order to enjoy the greatest boon of all — freedom and independence.

We were not surprised that the wife won a slogan contest. But what did amaze us was that she said anything in 25 words or less.

David Stapley, son of Mr. and Mrs. Grant Stapley, draws his covered wagon in the Children's Day Parade Wednesday. John Ellacott is second in line. Giesela Fieguth and Henkle Keuning are the couple in the background.

Attention All Would Be Rangers

At her enrolment a Ranger or Sea Ranger first makes the Guide Promise, or, if she has been a Guide, she repeats the Promise. She is then asked: "What is your special responsibility as a Ranger?" and she answers: "My special responsibility as a Ranger is to render service by taking this Promise out into a wider world."

Sometime between the ages of

fourteen and sixteen a Guide will rightly grow out of the Guide company. She is a more refined individual with special tastes and aptitudes; she responds less readily to being a member of a gang (the basis of the patrol system), and at about the same time she probably also becomes a worker or a student in a more adult world. This stage of growth has its own needs and difficulties and its own great opportunities. Rangering helps the older girl to develop her understanding of the Promise and Law so that she may carry the standard which they set into this new world of greater opportunities and freedom. It also gives her more advanced training in the art of good citizenship and helps her to develop any special bent.

The organization of each Ranger Company and Sea Ranger Crew will develop on its own. It can be said in general that the patrol system will be found less suitable for this than for the Guide age and its place will be largely taken by some system of groups, a company committee taking the place of the Court of Honour. The thing that matters in organization is that whatever form is used, it shall provide a training for citizenship in a democracy.

In a Ranger company there must be a high standard of technical efficiency if the training is to be of practical use, and the ideal of service to the community carried into effect; nor will a company or crew attract the best type of girl if the organization is unbusinesslike and the work of low standard. This means that much of the practical training for the tests must be given by an expert, and the Commissioner can help greatly by finding the people to teach special subjects.

Since it has been said that Rangers run themselves, arrange their own programmes and are taught by experts, it may be asked "Why have a

Ranger Guide?" She has a part, however, important though unobtrusive, and it needs the right kind of woman to play it. Essentials are a sense of direction and purpose in her own life, a real sympathy with girls of Ranger age, and wide interests. Her work needs the more wisdom because it must often be done in the background, though there are times when strong leadership is needed, and she must recognize these times and supply the need. She will watch each member of the company and be able to help or advise when necessary, and she will see that everyone has the chance to express herself and to give to the company as well as to receive the best from it. The Guide will keep up the standard of efficiency in the company and fill in any gaps that have been left in the training.

Rangers are learning to be intelligent and capable citizens of their country and they must at the same time remember that they are citizens of the world. The international side of Guiding is of great importance to the Ranger Branch and everything possible should be done to help them fully to realize their responsibilities as members of a great sisterhood which has spread round the world.

Any Guides or others interested in the Ranger programme please contact Mrs. Robt. Luery or Mrs. E. Kent.

Two old men from the country were spending the night in the city and went to a burlesque show. During one of the acts a curvaceous blonde was shown taking a bath in a large wooden tub.

"Ain't that something?" remarked one to his companion.

"Sure is," said the other. "Been years since I've seen a wooden tub."

Farmers Parade Tues. Afternoon

Carrying on the Centennial programme the Farmers' Parade was held on Tuesday afternoon with Stirling Citizens' Band under the direction of Maurice Bell, providing the music.

The parade was headed by Stirling's old fire truck, driven by Doug Robson, followed by the Band and Sidney MacDonald, Agricultural Representative, whose car was suitably decorated and listed the names of the Agricultural Representatives in Hastings County since the service was inaugurated.

Mr. and Mrs. Geo. Weaver, attired in costume of former years, rode in a buggy pulled by a fine black team. Will Cooney followed with a team of shetland ponies and carriage. E. Carr displayed an ancient wagon and cradle. Wesley Lake had a very old wagon and Frank Stapley a 1907 steam engine pulling a 1903 threshing outfit.

Frank Tucker and Ken Ray, machinery dealers, showed modern farm machinery.

Denton Shortt presented a new modern hay press. George Sutherland, of Clayvale Farm, drove his show horse and carriage.

River Valley Farm displayed an old wagon and tractor and a large sign depicting "Happy Birthday" to Stirling. On the wagon was an old spinning wheel which was a gift to his grandmother, the late Mary Morrow, in 1876. There was also a large assortment of old farm equipment.

The Frankford Pipe Band followed next in the parade and provided highland music. The last float was entered by the Morrow brothers, Kenneth and Harry, River Valley. The ancient tractor was driven by Neil Montgomery and the old-time reaper in charge of great grandpa was very reminiscent of the year 1858.

Don Rodgers, Centennial Chairman, welcomed the large group at the Recreational Centre. Graham Mouck, chairman of the parade committee, also extended sincere thanks and presented the silver trophies. First prize for the best float went to Frank Stapley. Second prize went to Ken and Harry Morrow. Third prize was awarded to Glen Morrow for his display of old equipment.

CALF RODEO

In little less than four minutes Paul McKeown of R.R. 2 Campbellford, caught his calf and led it across the finish line to take first prize in the calf rodeo. Ron Heath, of Stirling, came second and Joe Hagerman, of Harcod, was the third boy to cross the finish line.

The other two "young farmers" to take part were Paul Rollins, Stirling, and David Reid, Belleville. The trophies to the three winners were presented following the race by Sidney MacDonald, Agricultural Representative for Hastings County.

Yesterday—Funeral Today

A highly-esteemed resident of this village, Thomas Spry, died suddenly following a heart attack at his summer home, Oak Lake, on Monday night. He had been about as usual and had gone to his room to retire for the night when he was stricken.

Born in Rawdon Township he was the son of the late Mr. and Mrs. Wm. J. Spry and was in his 85th year. He had spent his entire life in the township and this village.

He operated a farm on the outskirts of the village for many years and at the same time conducted a coal business. He was well known throughout the district, was a kind friend and good neighbour and enjoyed a wide circle of friends, who will sincerely regret his sudden passing.

In a "wide open" nominating convention which saw balloting last for over three hours as six candidates allowed their names to stand, Hastings County Warden Lloyd H. Price, of Actinolite, was Friday night named Progressive Conservative candidate for the riding of East Hastings.

Warden Price defeated V. A. McMurray, of Gilmour, on the final ballot after four other nominees had been eliminated. Balloting was not completed until nearly 1:30 a.m. There were 206 official delegates present out of 207 named.

Mr. Price will now be the Progressive Conservative standard bearer in the September 11th by-election called by Premier Leslie Frost following the resignation of Roscoe Robson who resigned to become Hastings County Sheriff.

The world-wide Bible Reading programme of the Bible Society has followed an upward curve for the past fourteen years. One reason for this is undoubtedly the increased reproduction of the reading schedule in the religious and secular press.

Last year, Scripture appeared in 18 new languages for the first time. Scriptures are now being circulated in 1127 languages and dialects. One daily newspaper in India reproduces several chapters of Scripture daily and is read by multitudes of people. Bible Day in Brazil has become a

Out of Control

Each month, accident reports describe instances of drivers going off

the paved surface of roadways, losing control and crashing into trees or turning over in the ditch.

If advice is able to prevent even some of these tragedies, the following from the Motorist's Manual of the Ontario Department of Transport should help:

"If the wheels of your car run off the pavement on to soft shoulder, don't jerk back on the road. Remove foot from accelerator, do not push the clutch in; allow engine to reduce speed of car before pulling back on pavement. If jerked back on the road by a quick turn of the wheels your car may swerve into the path of oncoming traffic."

Look who's wearing her 'immediate cash adjustment'!

Gracious! What next? A body can hardly keep up with things these days. What with dogs spinning around in the sky and all. And now all this excitement about changing over your Victory Bonds. I was sorry to see mine go. Had it so long you know. But when

the young man at the bank explained that these new bonds paid more interest. Well I know a good thing when I see it. And besides, he gave me a nice cash adjustment—which I straightaway spent on a new bonnet. Like it?

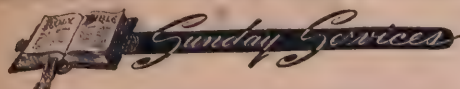

Convert your 3% Victory Bonds.

Earn up to 4½% on the new

Offer applies only to wartime Victory Bonds.

FOR EXAMPLE: a \$500 8th series Victory Bond exchanged for a \$500 Conversion Bond paying 4½% will give you \$8.75 in cash immediately. The higher interest will yield \$22.50 per year instead of the present \$15. See your investment dealer, stockbroker, bank, trust or loan company today.

Requirements for signalling or otherwise giving warning to vehicles behind are commonly understood. But many drivers extend their obligations even further, giving "go ahead" signals by horn or flashing lights, even using waving signals on movements with the arm.

In such a case, is the driver liable for the resulting accident if it can be proven his judgement was faulty? The answer is apparently yes as such signalling is not required by law.

A Tribute To Mrs. Russell Teal

There is no death; an angel form walks o'er the earth with silent tread. He bears our best loved ones away, And then we call them dead. Where'er he sees a smile too bright, Or soul too pure for taint of vice, He bears it to that world of light, To dwell in Paradise.

The above lines seem to connect with the oft repeated words "God moves in a mysterious way, His wonders to perform" and to help ease the

heartache and shock caused when one such as Mrs. Russell Teal entered into rest in Belleville General Hospital Tuesday afternoon, July 8th, 1958, in her 50th year. For only a few days at home she had spent from Sunday, May 11th, in Belleville General Hospital, and had undergone two major operations.

Daughter of the late Mr. and Mrs. Samuel Dayman, she was born Helen Orpha, in Campbellford April 6th, 1909. When a small child her parents moved to Norwood and in 1921 came to live in Cramahe Township just north of Colborne. She attended the Colborne High School.

Her life was one completely and unselfishly devoted to her home, Church and community. As a young girl she diligently assisted her parents with the work on their farm. Following her marriage, October 9th, 1927, to Mr. Russell Teal, she resided in East Colborne. In her own home she gave of her strength, love and ability unstintingly to her family, always exerting that kindly, Christian influence of which she possessed much. Words are inadequate to describe her Church activities. Since her residence at Colborne she has been a faithful member of Colborne United Church. As a young girl she attended Church, Sunday School, was a choir member and member of the Young People's Organization. When she became more mature, with her great ability of leadership, she became a Sunday School teacher, held offices in the Hustlers' Auxiliary, Women's Organizations, Young People's Groups and the Mission Band. A gifted elocutionist, blessed with a wonderful memory, she gave freely of this talent to entertain at Church services and community concerts. To the last, she was a faithful servant to her Master, on Sunday morning, May 11th (Mother's Day), as was her custom at special Church services, she gave an appropriate reading. In the afternoon she was admitted to hospital and during the following week underwent surgery.

In her community she worked willingly and capably in its projects, a member of the Boys Pals' Club Mother's Auxiliary, and the Scout Auxiliary, and Local Association. She is survived by her husband, three sons and two daughters, all at home: Doreen, Wilfred, David, Anne, Terry; two sisters, Mrs. Burton (Grace) Morton, Stirling; Mrs. Russell (Dorothy) Webber, Fenslon Falls; two brothers, Cleo, of Peterborough; Frank, of Smithfield. Mrs. Teal rested at the G. B. Barnes Funeral Home, Colborne, where several hundred called to pay their respects to the deceased, an outstanding citizen, and to express their sympathy to her family at the untimely death of a wife and mother. A short private service was held at 11.15 Friday morning, conducted by Rev. James Gibson, Pastor of Colborne Baptist Church.

At 2 p.m. Colborne United Church was filled to its seating capacity for the funeral service. Rev. F. W. Taylor, Minister of the Church, gave the address, taking as his text, "A house not made with hands eternal in the heavens," 11 Cor. 5:1. He was assisted by Rev. F. W. Mahaffy, Colborne, a retired minister, and by Rev. Roy Rickard, Bayside, who had officiated at the deceased's marriage.

Mrs. Wm. G. Irvine presided at the organ and choir member associates of the deceased, made up the choir. Officers and members of the Hustlers' Auxiliary to the Woman's Association were present in a body.

The pallbearers were Messrs. Walter Harnden, Bruce Spencer, Rudolph Chapman, Gordon Haynes, James Barnett and Charles McGuire. Interment at Salem Cemetery.

OF MANY THINGS

(By Ambrose Hills)

I'M IN TROUBLE AGAIN

I suppose I can't expect to write a column and not stir up a fight; but this time I have two outfits sore at me.

It seems I've offended just about everybody in the oil industry, even though I was only after those who are asking for a government subsidy to build a crude oil pipeline to Montreal. I'm also being scolded by the secretary of the Ontario Poultry Producers' Association for my comments about compulsory egg marketing — though I note she avoided using the word "compulsory" as did others who took issue with me on that score.

I admit that in criticizing compulsory marketing I might have seemed unsympathetic to egg producers. I am not. If I have sounded unsympathetic, I'm sorry indeed. I once had a try at producing eggs on a model chicken farm on the outskirts of Edmonton. It was not the brightest spot in my career, and I know it is not an easy way to make a living.

As far as the oil industry is concerned, I can understand that some may have taken my condemnation of a certain section of the industry as a smear on the whole works. One critic points out that those who want the government to back a crude oil pipeline represent only a small percentage of the oil production in Alberta, and an exceedingly small percentage of the oil capacity of the province. He says many of the bigger oil companies are against the plan in principle and have dealt themselves out of the proposition even though it would have meant millions in profit for them. I gladly acknowledge this, and I have a hearty respect for the kind of good sense these companies have apparently displayed.

Now I don't know whether these contrite paragraphs will make egg producers or oil men feel better about me; but I did want my readers to know that I'm not a mean old grouch. I want to be fair. But I'm against compulsory marketing and feel I have to say so; and I'm against handling the oil industry, or any part of it, large or small, the Montreal market on a platter while we pay to pipe their oil down there.

Next week my column will probably be headed: SWEETNESS AND LIGHT. I'm getting tired of fights.

THE FOOD BASKET

USE SUMMERTIME FRUITS IN ALL KINDS OF SALADS

Appetizer Salads

To begin a meal with a flourish, serve a small refreshing salad that will stimulate the appetite, for example, melon balls in lettuce cup, with zippy French or Roquefort dressing.

Garniture Salads

Garnish a platter of meat, poultry or fish with small salad portions. With chicken or ham, try sprays of watercress and apricot halves filled with balls of seasoned cream cheese.

Main Dish Salads

Combine fruits with cheese to make a substantial and satisfying salad that's a meal in itself. For a "help-yourself" salad, line a lazy Susan or platter or tray with lettuce or other green. In the centre, place a large mound of cottage cheese and around it arrange several of the following fruits in attractive groups: melon wedges, plum halves, cherries, apple wedges, berries, and fresh or canned peaches, and pears. Garnish with mint leaves and serve very cold along with whipped cream dressing.

Accompaniment Salads

To follow the main course or to accompany it serve a medium-size portion of salad on a separate plate, for example, two or three fruits and a green with mayonnaise. A good salad with pork is tossed Waldorf Salad — diced unpeeled apple, chopped celery, nuts and mayonnaise — nestled in a lettuce cup.

Party Or Dessert Salads

For desserts or special occasions serve sweeter salads — moulded salads — frozen salads. Use cheese, nuts, fruits and whipped cream generously. For an eye-catching dessert — mould apricot halves and blueberries or raspberries in lemon-flavoured jelly. To serve, unmould, and decorate with whipped cream and additional apricots and berries.

Canada supplies about 60 per cent of the world's asbestos; most of it comes from mines in Quebec's Eastern Townships but northern Ontario and northern B.C. have one mine each.

Historians are uncertain as to the discoverer of Hudson Strait, the sea passage from the Atlantic to Hudson Bay; John Cabot may have been in the Strait in 1498, or Portuguese sailors may have entered it a few years later.

Dads know more than the good picnic spots

When it's a perfect day for a picnic, most Dads know where the grass is cool and green... where the swimming's safe... where the family can have fun. Dads know a lot of useful things like that.

And one of the things they also know is that it pays to be realistic about life insurance protection. The family income, the children's education, their home — these are things worth safeguarding.

NEWS FOR THE BUSY FARMER

RECOMMENDED PRICES FOR FALL SEED

The following minimum prices for seed of fall seeded crops were recommended at a recent meeting of the Seed Marketing and Publicity Committee, Ontario Soil and Crop Improvement Association:

Winter Wheat—
Registered No. 1 — \$2.35 per bushel
Certified No. 1 — \$3.10 per bushel
Commercial No. 1 — \$1.90 per bushel

Rye (Tetra Petus)—
\$1.75 per bushel

Winter Barley—
Registered No. 1 — \$2.25 per bushel

Commercial No. 1 — \$2.00 per bushel. These suggested prices are for treated seed in new bags, at farm or local shipping point, and with the exception of Commercial No. 1 Winter Barley, all are the same as last year.

Acres of Winter Barley has increased tremendously in recent years, particularly in Western Ontario, with the new Hudson Variety giving very satisfactory results in hardiness, yield and quality.

Tetra Petus Rye is also being used more extensively for pasturing, silage, grain and winter cover crops. Considerable acreage is now being

prepared for these fall-sown crops and it is expected that many farmers will either sell or feed their own wheat and purchase cleaned, graded seed all ready for their drills.

The Committee is composed of growers and officials of the Ontario Department of Agriculture and represents all sections of the Province. W. E. Breckon, of Freeman, and R. E. Goodin, Assistant Director of the Fields Crops Branch, Ontario Department of Agriculture, Toronto, were re-elected Chairman and Secretary respectively.

PARASITIC BRONCHITIS A NEW DISEASE IN ONTARIO CATTLE

Reports from veterinarians across Southern Ontario indicate that a new disease problem exists in many Ontario herds. The condition is caused by lungworm and it results in a parasitic bronchitis in calves under a year old. Calves which show a pneumonia-like condition but fail to respond to normal treatments for pneumonia are often the first indication that something unusual is causing the trouble.

Affected calves continue to eat well, but steadily lose condition. Usually a soft deep cough will be noticed shortly after the onset of the disease. The Ontario Veterinary College, Guelph, reports that the disease is seasonal, usually beginning its course in August, and running through to mid November.

The life cycle of the parasite is such that the lungworm affects only calves that have been on pasture. Usually the death rate is very low, but it has run as high as ten per cent in some herds. Calves that are penned indoors for the first year usually will not become affected.

At the present time new drugs for the treatment of parasitic bronchitis are being evaluated.

NEW SWINE DISEASE REPORTED IN ONTARIO

Authorities at the Ontario Veterinary College report that a new disease affecting little pigs is appearing in some herds. The disease, which has been referred to as vomiting disease of little pigs, is somewhat similar to a disease called "transmissible gastroenteritis." This new disease affects suckling pigs of two to six weeks of age.

Vomiting is usually the first symptom noticed. The little pigs lose all interest in food and it is reported that so far nothing has been found that will stimulate their appetite. They become very unthrifty and eventually die.

In transmissible gastroenteritis, the pigs become acutely sick and die quickly, usually in the first few weeks of life.

Veterinary authorities are unable to recommend and preventive measures other than proper sanitary practices to avoid the spreading of the disease in a herd.

SMOKING WHIMS

The whims of the cigarette smoker are having an effect on the tobacco grower.

In the past, a heavy bodied leaf high in nicotine was required by the market. This was achieved by pinching out the bud of burley tobacco and keeping the crop closely suckered.

Today the big demand is for low nicotine cigarettes and this can be produced by high topping and delaying suckering.

W. A. Scott, Harrow Experimental Farm, Canada Department of Agriculture, claims growers are not fully aware of this and much unsuitable burley tobacco is being produced.

He warns that unless a uniformly distinctive new type of burley leaf suitable for today's cigarettes is developed, the growing market at home and abroad may be lost.

He says tests have shown that the proportion of cigarette tobacco has increased as much as 50 per cent by leaving suckers on high topped tobacco just before harvest, that the nicotine level was reduced about one-third, the grade value increased and labor cut.

"For quality tobacco," says Mr. Scott, "the best procedure is to delay suckering until just before harvest."

"However, to spread the work load and gain in yield without serious detrimental effects on quality, all the big suckers with the exception of the two top ones may be removed several days earlier."

CARELESSNESS CHIEF CAUSE OF FARM ACCIDENTS

Safety on the farm is something that cannot be over-emphasized. Industrial workers are usually protected by special clothing, equipment and inspection which is compulsory where hazardous work is engaged in. The farm worker however, cannot depend on someone else to be safety conscious for him, for while farm imple-

ment manufacturers put as many safety devices as possible on their equipment and provide instructions for its safe use, these are all of no avail if the person operating it is careless — even for a moment.

Bob Kelly, Agricultural Engineering Fieldman, Kemptville Agricultural School, says that while there are a great many causes of accidents, the majority are caused by someone who tolerates unsafe conditions or by someone who commits an unsafe act.

Some of the unsafe conditions or hazards around a farm are ladders with broken rungs or cracked side rails, cluttered stairways, combustible fuels stored in or near buildings, bull pens and exercise yards with inadequate fencing and gates, lightning rod ground wires that have become disconnected and machinery operated without power take-off shields or other protective coverings which have been removed during servicing or maintenance operations and not replaced.

Farm machinery by the very nature of the work it has to perform, can be dangerous to operate for if it will cut grass, it can cut fingers; if it can press hay, it can also maim arms and legs. Many machines have dangerously exposed working parts which it is impossible to cover while in use. To offset these dangers, the operator must learn to take the same precautions, achieve the same safety consciousness, and employ the same safety techniques that have proved practical and successful in industry.

WORKHORSE REGAINING POPULARITY

Canada's workhorse is regaining some of the prominence it lost during the post-war years.

At present there is a scarcity of this type of horse, according to Dr. F. J. Leslie, Livestock and Poultry Production Division, Canada Department of Agriculture, and there has been a noticeable increased interest in breeding.

The price, he said, has nearly doubled in the past six or seven years.

Dr. Leslie explained that a fair percentage of farms in Quebec and other parts of Canada, will always require horses.

"Due to climatic and geographic conditions, there will always be a considerable demand for draught-type horses," he asserted.

The federal expert outlined three main reasons for the drastic decline

in numbers:

1. Mechanization.
2. Sale of horses for slaughter purposes during and after World War II.
3. Farm labour shortage. Hired men preferred driving tractors to horses.

Now that a shortage does exist across the country, Dr. Leslie said, many farmers are again breeding their own work horses.

McComb and Son Premier Breeders At Holstein Show

The entries of A. B. McComb and Son, Belleville, dominated the Hastings Black and White Day held August 13th in connection with Belleville Fair. Altogether McComb won fourteen first prizes, including all the groups, the Grand Champion cow, the Junior Champion female, the reserve Junior Champion female, the Grand Champion bull, the reserve Grand Champion bull, and the reserve Junior Champion bull. Jack Burnside, of Madoc, was the runner up for premier breeder and premier exhibitor showed the Junior Champion bull, while Garnet Denyes, of Plainfield, showed the reserve Grand Champion cow who was also the winner of the Best Udder award. Burnside had a total of three firsts, Denyes two firsts and Philo Harris, Madoc, one first.

Judge Roy Ormiston, of Brooklin, commented on the good quality and strong tops in each class. The competition in the bull classes was excellent, the senior and Grand Champion being the winning aged bull, Glenalcomb Lucky Rocket, who is a son of the famous show bull Rockwood Rocket Toss. This bull has great stretch, a wide, level rump, and walks well on good legs. The reserve Grand Champion was the first prize two-year-old, Glenalcomb Pabst Sir Echo, a particularly smooth bull with a wealth of quality and style. Burnside's junior champion bull was the first prize junior bull calf, Signet Fond Proprietor, while McComb's reserve Junior Champion was the winning senior bull calf, Glenalcomb Lucky Jane. Both junior bulls were type dairy bulls with sharp shoulder and good rib.

The dry aged cow class which was headed by the grand champion, Glenalcomb Rocket Doreen, was probably the strongest of the show. The Grand

Champion is a daughter of Rockwood Rocket Toss, and is a well balanced, strong topped cow. Nellie Royal O'Connor, who headed the aged cows in milk for Garnet Denyes was a strong contender for the Grand Championship, but had to be content with being named Reserve Grand Champion and Best Uddered Female.

McComb's Junior Champion female was the first prize senior heifer calf, Glenalcomb Pabst Lucy, and his reserve Junior Champion female the winning junior yearling heifer, Glenalcomb Sovereign Fanny. These two, together with the first prize junior heifer calf and the first prize senior bull calf won the junior get-of-sire for McComb, being a very uniform group sired by the Grand Champion bull. The Grand and reserve Grand Champion bulls made a very outstanding group to win the progeny of dam class.

In addition to the Junior Champion bull, Jack Burnside showed the first prize dry three-year-old and the winning dry two-year-old, while Philo Harris had the top milking three-year-old.

Altogether, fifty-eight head were shown by six exhibitors.

Canadian Nation Is Becoming Younger

The average of Canadians is getting lower.

In other words, as this nation is getting older, its citizens are getting younger.

This is revealed by the Dominion Bureau of Statistics at Ottawa.

It indicates that in the 15 year period between 1941 and 1956 the average age of citizens of this country dropped to 29.8 from 30.4.

In making the announcement, the bureau stated that the proportion of the nation's population under 15 years of age and over 64 had increased during the period, while the working age population became proportionately smaller.

Commonplace courtesies in everyday life — like the holding of a swing door for another shopper — seem to have comparatively few counterparts on the highway. Perhaps that is why an act of driving courtesy is so particularly appreciated, comments the Ontario Safety League.

60,000 new reasons every day for mechanized farming!

In these days of man-made planets we tend to overlook this old, but still miraculous, earth that feeds and provides for us all.

That over 60,000 babies are born into this world each day—more than enough to repopulate the whole of Canada in less than a year—goes unnoticed. That these 60,000 new mouths will be fed on the produce of this small earth does not make headline news!

Yet, when we consider this astonishing growth in the world's population, we must wonder how it is that our standard of living—measured in terms of food consumption—remains so high. How is it possible when there has been little appreciable increase in the world farm acreage and a decline in the ac-

tual farming population?

The answer lies in farm mechanization in a scientific approach to food cultivation and the development of modern machine methods to increase output per acre and per man-hour worked.

In this development Massey-Ferguson plays a leading role throughout the world—in Canada, in the United States, in France, South America, Great Britain, South Africa, Germany and Australia.

All the world over, wherever farming is mechanized to meet our ever-growing needs, there we find Massey-Ferguson machines hard at work in the fields.

A Traveller's Note Book

What happens when people are trying to reach the same place by two different roads? And, when one of the parties really believes that his is the only road to the goal?

Something of this sort of thing has been going on so long now that it is time to recognize that though one person may be sincere he may yet be mistaken. I refer to the question of recognizing Communist China.

That Communist China inflicted a major diplomatic defeat on the United States some years ago, is no reason why the present attitude of isolation should be maintained. Other nations have suffered diplomatic defeats and have had to like them, learn from them and get on with the job of living together. The failure on the part of the U.S.A. to do this is one reason why the present farce of supporting what is called Nationalist China is continued.

The second reason is: For many

years the U.S.A. lived in splendid isolation from the rest of the world. From inside, she surveyed the jungle of events beyond her borders and hated it; she also criticized rather freely. Following the two wars, she found herself thrown out into that same jungle and did not know what it was all about. So she started thinking in terms of principle. There is, so she thought, a universal law, a moral law which is everywhere and everywhere recognizable. All we had to do was to point this out, act on high principles and wait for the nations to fall in line with this temper. It did not happen and will probably not happen for many generations to come. For, there is no such law or principle recognized throughout the world.

On the other hand, Britain with generations of experience in the world has never taken that attitude. She has always been pragmatic. Keep the seas safe. Trade. Introduce responsible government. Organize the ways and means of life, but never have you heard Britain talk of morality within the United Nations or of immorality in Communist China.

We think in terms of the boxing ring. The only way to avoid a knock out blow is — get as near as you can to your opponent. It's high time we did that and let the chirpers of the dangers, the wickedness of communism go swim in the lake.

On the other hand, no one will complain that the United States approach international affairs from a high moral level, the unfortunate thing is, the world does not yet appreciate the value of acting on that level. Ask the Egyptian!

Breath of Life

Knowing what to do for a victim drawn from the water might help strip drowning of its rank as the Number 4 cause of all accidental deaths.

If the victim is unconscious, shows no breathing movements, his chances of ever breathing again depend on how fast he gets artificial respiration, says an article in the medical magazine Pfizer Spectrum. The margin between life and death is measured in seconds.

Kneeling with the victim's head between his knees, the operator places both hands on the victim's back, thumbs touching and heels of hands just below the armpit level. The operator forces the victim to exhale by slowly rocking backward, straightarm, until his arms are about vertical so that slow, even pressure is exerted on the chest.

The patient in made to inhale by slowly rocking backward, sliding the hands under his arms just above the elbows and raising the arms until resistance and tension are felt at the patient's shoulders. The cycles are steadily repeated 12 times a minute, each phase occupying about equal time. When artificial respiration is in progress, material can be cleared from the mouth.

When the patient begins to gasp, the operator should time his efforts with the patient's until he starts to breathe effectively. Then the victim should be taken to a hospital.

How long should artificial respiration be kept up when a drowned person shows no response at all? At least half an hour, most experts advise.

Hon. W. A. Goodfellow, Minister of Agriculture, To Officially Open Exhibition

Plans are going forward for the Centennial of Stirling Fair, to be held under the auspices of the Stirling Agricultural Society on Friday and Saturday, September 19th and 20th. Centennial gates, with suitable plaques, have been erected at the northern entrance to the grounds to mark the occasion and Hon. W. A. Goodfellow, Ontario Minister of Agriculture, has kindly consented to be present to officially open the Fair at 1.30 p.m. Saturday.

President Clarence Fitchett and the directors are leaving nothing undone to make the 1958 Fair one of the best in its history and it is hoped that citizens in the entire community will lend their support.

Allan Shows Returning

It has been announced that the Allan Shows will again provide the midway for the Fair with several rides and the customary concessions. Back To School Buying Gains Momentum

The business of going back to school means plenty of shopping. This week is a good time to start.

There are notebooks, text books, pencils, protractors, geometry sets, pens, erasers, dictionaries and a dozen-and-one other things to be provided for the student every Fall.

Clothes are another problem that must be solved in the Fall.

Too soon the fine warm weather will give way to nippy, blustery and rainy weather that calls for warm footwear, soft woolen sweaters, raincoats, windbreakers and warmer suits.

For secondary school students the first few days of school are one mad whirl of buying text books. How much time and trouble they could save by buying beforehand.

Buy At Local Stores

The local stores have all the books and supplies needed by the students as well as a good stock of wearing apparel for the Fall and Winter seasons. Shop early and don't forget to shop in your home town stores.

Don't Let The Long Week-End Be Your Last Week-End

Trying to stretch a holiday beyond its limits can be fatal, drivers are warned by Ontario Minister of Transport, Dr. M. B. Dymond.

He pointed out that highway hazards, target of the department's summer-long "SLOW DOWN AND LIVE" safety campaign, all too frequently are caused by drivers whose impatience to get to their chosen holiday spot or failure to give themselves adequate time to get back to their home cause them to take chances on the road.

Such long holiday week-ends as the

Labour Day period, are particularly poor times in which to try to "stretch" a holiday, Dr. Dymond emphasised.

He urged that in planning holiday trips, drivers give full consideration to the need for sufficient time to make the journey at a safe speed with additional allowance for unforeseen delays. "It's better to take a shorter trip and return alive," Transport Minister Dymond commented.

Let's make this Labour Day week-end the safest holiday week-end in Ontario's highway traffic history urged Dr. Dymond. It can be done if drivers everywhere will keep constantly aware of their personal responsibility to drive with care and consideration . . . to drive at sane speeds. We must let our driving proclaim to the world that we here in Ontario are drivers with an adult sense of responsibility . . . drive with the good sense to SLOW DOWN AND LIVE.

Hastings County Votes \$10,000 To Nurses' Home

Getting down to business after two days of discussions, Hastings County Councillors approved Friday renovations costing up to \$200,000 at the County Court House; voted a grant of \$10,000 to the Belleville General

Hospital to assist in the construction of a new nurses' training school, and approved a grant of \$1,000 to the Belleville McFarland's Hockey Club to help to send them to Prague for world championship competition.

All councillors were generally in accord that extensive renovations to the County Court House were necessary, while only the amount of the grant to be given to the hospital nursing school entered into the discussion.

And the grant for the Belleville McFarland's was approved with only token opposition coming from one councillor, the only question then being why the Federal government or the Canadian Hockey Association did not contribute to pay the expenses of a team in international competition.

With preliminary plans and architect's drawings having previously been viewed by Council, members voted for the finance and property committee headed by Reeve J. N. Brown, of Bancroft, to retain architects to prepare working plans for Court House renovations and to call for tenders to be opened at the next session of Council in December.

The motion was made by Reeve James Kinlin whose only question was "Is all this work necessary?"

Reeve Brown assured that an overall plan for renovations was the only

answer at the Court House as alterations done each year were not providing satisfactory and in many cases had to be changed in later years.

He noted that a letter was on file from the Bar Association giving its members' stamp of approval on the proposed plans for renovations.

With council approval of the over-all plan Warden Lloyd Price told council that "he was pleased council had seen fit to carry Reeve Kinlin's motion."

"We have made many changes at the Court House but no permanent improvements have been achieved," he said. "Now members of this council will be able to look back with pride and feel that we have had something to do with improvements that we hope will last for at least 50 years."

The \$10,000 grant for the proposed nurses' teaching school will be paid in two instalments, starting in 1959.

As county representative on the hospital board, Reeve William Shannon, of Marmora Village, urged approval of a grant at least in the figure of \$10,000 which had been cited by the finance committee, and suggested that the County "would not be out of the way in going even further than the \$10,000 recommended by the finance committee."

No Legal Obligation

He admitted the County had no legal obligation in making a grant but suggested the County did have a "moral opportunity."

"It is my feeling through working with members of the hospital board and realizing the calibre of people on the board that this is not a case of trying to stick the county," he said. "I feel they are hard pressed to meet obligations."

Reeve Irwin McCoy, of Marmora Township, admitted that in the past he had been critical of the hospital but in this case was in favor of the grant and moved that the county give \$15,000.

Reeve Kinlin came back with an amendment calling for a grant of \$10,

000 as recommended by the finance department, the motion being seconded by Reeve Holt, of Stirling.

Then when he had no seconder for his original motion Reeve McCoy tabled a second amendment calling for a grant of \$12,500 and this was seconded by Reeve Shannon.

Reeve McCoy's amendment was lost when the motion for the \$10,000 was voted on it was carried almost unanimously.

William Davis introduced the motion calling for a grant of \$1,000 to the Belleville McFarland's Hockey Club to assist in sending the team to Prague and the motion was seconded by Reeve Kinlin.

Killed Near Tweed

Stuart Riley, 59, of Belleville, was killed instantly Monday when his car crashed down an embankment five miles south of Tweed.

Mr. Riley, the father of two children, was returning alone to his holiday cottage on nearby Stoco Lake when the accident occurred.

Police say the automobile went off a curve on No. 37 Highway and crashed down the steep embankment.

4-H Potato Club

The fourth meeting of the South Hastings 4-H Potato Club was held in the Agricultural Office on August 20th. The meeting was opened by repeating the 4-H Club Pledge. Ten members were present. It was decided that the next meeting would be on September 30th.

"How to prepare potatoes for show and how to fill in the report forms," were explained. Mr. Ross Bateman gave a few comments on what to look for when judging potatoes. Mr. Nesbitt gave a few remarks on what to look for when judging oats.

The members judged and gave reasons on two classes of cobbler potatoes and one class of Rodney oats.

A Traveller's Note Book**In Search of Happiness**

Never before have people searched more feverishly for happiness than in our own day, never before has man fastened more feverishly on what the purveyor of happiness has to sell: "Give yourself to God... Give yourself to work... Give yourself to me," the latter meaning "Come on in and have a rye on the rocks."

So we have the smart looking female who, because of her curves, has the nerve to jam herself in between a more or less serious play you are watching or a programme you are following and croons: "Be lovely. Look lovely. Feel heavenly. Just watch this transparent beam, let it touch your lovely face and you will feel like a million dollars. Relaxed! Youthful again, and happy." Or that gal who comes on and offers her sisters a new shape by shooting the fashion line to a new high and the weekly income to a new low.

Hence I turned my thoughts to a list of some five or six very happy people whom I have known. Not one of them could have cared less about the fashion line and I venture to believe that they never spent a nickel on

cosmetics. Yet they were happy, wonderfully happy. And it was not that they had money or brains. I remember one, he had a garden. He called it God's Garden. It was full of vegetables and fruits and any one of his neighbours was at liberty to come get a cabbage or a basket of fruit. No, he had nothing much under the thatch; none of the utilities or frustrations which are to be found under most hats, but he was wonderfully happy whenever he saw a person come into God's Garden.

Mr. Dulles Warns China

The Chinese seem to be making war-like noises and Mr. Dulles does not like such war-like noises. We, none of us like war-like noises whatever direction they come from. All we want is that the world should settle down in peace. But we have to be realistic. What a huge pretence this Formosa business is. And why? Maybe it is necessary to show some disapproval of communism, it can, however, never be necessary to pretend that a nation of 600,000,000 people is not a nation, and it is certain that sooner or later we will have to recognize the fact.

So there may be a Russian-American-Chinese war. Well, may they all enjoy it. What we do know is this — no one would be the better for it. Following the last war we soon found how far along the wrong road we had been carried. Germany became divided into two States. Japan was treated like a lost brother. Italy was put on the permanent pay roll and ever since the West has tried to buy what others do not intend to sell — their right to individualism. Meantime, too many people have had grim cause to reflect upon the fact that we always fight things out first and think things out later.

East Hastings Liberals Fail To Name Candidate

The East Hastings Liberal Association meeting at St. Catharines Hall on Friday night broke up without any official announcement as to whether the party would have a candidate in the by-election scheduled for September 11th.

The meeting, attended by less than 100, was called for the election of Association officers and for "other business" which chairman Dr. D. C. McVicker, of Deseronto, said might include a candidate.

Following the meeting, which saw Ontario Liberal leader John J. Wintemeyer as the guest speaker, the newly-elected executive met with Ontario Liberal organizer Jim Scott and although there was no official announcement it was felt in some quarters the East Hastings Liberals would have a candidate by Thursday, official nomination date.

The U.S. headquarters of the International labour unions receive about \$35 million a year from the dues paid by Canadian members.

Canada Conversion Loan Quota Is 100 Per Cent

Local residents who have not yet exchanged their Victory Bonds for one of the new Canada Conversion Loan issues are being urged to do so at once since there are now only twelve days left until September 15th when the conversion offer ends.

Many local people and businesses have already completed their conversions and added to the huge total for the whole Dominion. With returns now coming in increasing volume from the smaller centres like this, the total now converted is more than twice the amount of the largest Victory Loan campaign during the war. A week ago, the figure had passed the four billion dollar mark.

The end of the holiday season is expected to see a rush of conversions by private individuals as they return from vacations and visit their banks or investment dealers. September 3rd has already been named Conversion Day in some communities with banks and other financial institutions making special preparations to handle large numbers of conversions that day.

Strangely, many Canadians had completely forgotten that they owned Victory Bonds and are now richer than they thought they were. Bonds have turned up in the strangest places; in biscuit boxes, old strong boxes, bureau and desk drawers and country attics. These forgotten bonds have coupons attached so that their owners have not only been able to exchange them for new bonds at a higher interest rate but have also collected back interest and their cash adjustments.

From local bank and investment officials comes the following advice:

1. Examine all possible storage places in your homes or offices for possible bonds.
2. If you have any bonds in your possession, exchange them for the new Conversion Bonds right away.
3. If you do not have any Victory Bonds but are looking for a good investment, ask your bank or dealer to buy some Victories for you and then convert them to the new issue.
4. Consider the long-term 4½ per cent bonds as investments for your children, but remember there are three other shorter terms to choose from.
5. The term "non-callable" does not mean you cannot sell your Conversion

Bonds at any time. It simply means that you cannot be compelled to sell them until their maturity date.

During the war this community had a quota for each Victory Loan campaign. Its Canada Conversion Loan quota is 100 per cent conversion of the bonds still held there.

Two Ontario 4-H's Win Scholarship Trip

This year for the first time, Ontario was included in the Wm. H. Danforth Leadership Training Scholarship which consists of a two-week period at Camp Minnawaca, at Stony Lake, Oceana County, Michigan.

The scholarship was open to one 4-H boy and one 4-H girl from Ontario this year, in addition to two nominees from each of the forty-eight States in the United States.

Selections from Ontario were based on four points which stand for four-square development, the principle on which the American Youth Foundation Leadership Training Camp is based. This includes athletic activities, scholarship standing, leadership in 4-H Club Work, and character.

The 4-H girl selected to represent Ontario was Barbara Dick, R.R. 2,

Bloomfield, Prince Edward County, and the 4-H boy selected was Grant Ketcheson, R.R. 1, Madoc, Hastings County.

Barbara attended the Camp July 28th to August 19th, while Grant attended the Camp from August 11th to 24th.

The curriculum is composed of courses in Christian Ideals, Personal Foundations, Personal Enrichment, Leadership Principles and Leadership Practice. A comprehensive programme of group social and recreational activities is included in the Camp schedule.

THE BIBLE TODAY

(By Rev. C. R. Rudd)

The new trend, in Portugal, is a return to the Bible. Right now there is being published, in Portugal, a new Roman Catholic edition of the Scriptures, entitled "Edicao Monumental da Biblia Sagrada." It is coming out in folios, and has articles of introduction and full page illustrations.

Previous editions of the Bible have always been translations from the Latin Vulgate; this will be the first time that a translation has been made from the original Hebrew and Greek languages. The Roman Catholic

Church has also authorized the publication of a one-volume commentary on the whole of the Bible, intended mainly for university students.

NEWS FOR THE BUSY FARMER

WHORLED MILKWEED POISONOUS TO STOCK

Milkweed is a pasture pest — and even in cultivated crops is often a problem, states the Field Crops Branch of the Ontario Department of Agriculture. It cannot be controlled by mowing or cutting as it is a perennial and spreads by root stalks as well as by seeds.

Milkweed grows two to five feet in height, bears reddish purple flower clusters and the flowers produce large pods which when mature split open discharging a horde of parachute-equipped seeds that float in the breeze to new locations where they soon become established. The leaves of the common milkweed grow in pairs, are smooth, shiny, and as they get older, waxy on the upper surface.

The undersides of the leaves are a lighter green and covered with fine hairs.

One member of the milkweed family, whorled milkweed, is very poisonous to live stock. The leaves are narrow and in whorls about the stem; the flowers are greenish in color. This plant is described in Bulletin 508, "Plants Poisonous to Livestock" which is available to residents of Ontario from offices of Agricultural Representatives.

Milkweed may be controlled by spraying with brushkill, or 2,4,5-T at 16 oz. of acid equivalent per acre. Plants are most susceptible when young. As they get older, the waxy covering on the upper surface of the leaf becomes thick and the spray may only be effective when directed to the

under surface of the leaves by means of drop pipes from spray booms. On roadsides or waste places a mixture of 2,4-D and sodium chlorate controls top growth.

For spot spraying, a brushkill spray or amino triazole at the rate of 4 tbsp. per gallon of water is very effective. Circular 75C contains information on the control of this and other weeds on roadsides and in waste places. The circular may be obtained by Ontario residents from offices of Agricultural Representatives throughout the Province.

PHOSPHOROUS DEFICIENCY IN CATTLE

Phosphorous deficiency in cattle is still one of the most common nutritional diseases in Ontario. Since a very high percentage of the soil in Ontario is low in phosphorous, it necessarily follows that the hay, pasture and other farm crops will also be low in phosphorous. Beef cattle that have been roughed through the winter, or cattle that have been grazing on extremely dry pastures are most commonly affected. Cows which are nursing calves are more often affected than steers.

According to the Ontario Veterinary College a general unthriftiness, stiffness, lameness, roughened coat and a tucked appearance are the most obvious symptoms of a lack of phosphorous. Cows that are deficient in phosphorous frequently become a breeding problem. Affected animals tend to eat bones, pieces of wood and other things that they would not normally eat.

Phosphorous deficiency in cattle can be prevented by feeding a registered mineral mixture or feeding bone meal to supplement the regular ration.

PREPARATIONS WELL

PLOWING MATCH

ADVANCED FOR INTERNATIONAL Chairman of the Local Committee for the 1958 International Plowing Match, Peter Manley, M.P.P., has reported to the Ontario Plowmen's Association that plans are well advanced on the local level for the match to be held at Cryslar, Ontario, October 7th to 10th.

According to Mr. Manley, residents of the United Counties of Stormont, Dundas and Glengarry, have been busy with preparations for the big

event.

The Farmstead Improvement Commission, which closes on September 1st, has already brought about many changes in the landscape. Farm homes, barns, fence rows and roadsides are being brightened for the benefit of visitors from other parts of Ontario, Quebec and the United States.

All other committees are in readiness for the many phases of the event. For the plowmen the 1958 Committee reports there are more than 2,000 acres of the best plow land in Ontario. Already the Billets Committee reports sufficient accommodation available for overnight visitors.

Arrangements for the huge "Tented City" are well in hand. Applications from exhibitors and caterers are arriving daily at headquarters in the Parliament Buildings, Toronto.

The 1958 International Plowing Match Committee invited everyone to this historic part of Ontario during the week of October 7th to 10th and would remind them to see the St. Lawrence Seaway and Hydro Project on the way.

A Letter To The Editor

Dear Sirs:

Ownership of a piece of land whether a city lot, a farm or a summer camp site is a cherished ambition on the part of many residents of Ontario. This is perhaps especially true of some new Canadians who feel that, by buying land, they may establish themselves in this country in the fullest sense of the word.

The ownership of property can undoubtedly be a source of considerable pride and happiness. However, unless reasonable precautions such as those outlined in this letter, are taken in buying land, the results instead may well be bitter disappointment and serious financial loss.

In recent weeks it has been drawn to my attention that a number of persons have found themselves in unfortunate situations as a result of certain land dealings and transactions. As Minister of Planning and Development of Ontario, I consider it my responsibility to attempt to reduce in every possible way the chances of repetition of such situations.

While the majority of land sale activities to which I refer are "summer resort" lots in the Georgian Bay and Muskoka areas the possibilities of embarrassing land entanglement lie in all areas of the Province which shelter persons who presume to know the law but knowingly do not comply with it.

The techniques of operation of these land "operators" are most varied and complex and I will not undertake to outline them here except to say that these transactions all appear to be characterized by the offering of "wonderful" building lots at unbelievably low prices and the act of transferring all responsibility to the purchaser.

Flagrant violation of the statute law of this Province will not be condoned.

There are several simple guides that I would offer to those contemplating purchase of lots which should be followed if they are to ensure that their purchase is not later proven an unfortunate one.

1. Inspect the property to see if it is as suitable for building as advertised.

2. Be certain that the property offered is in fact the property which will ultimately be transferred. There are instances where persons have been shown lake shore property and found later that the property transferred was several hundred feet from water. Or, shown a beautiful building lot and later found that their deed entitles them to either a rock outcrop or a piece of muskeg.

3. Do not purchase lots by reference to a plan which has not been registered. Under Ontario law it is illegal to sell or otherwise transfer property by reference to an unregistered plan of subdivision.

4. Consult with a lawyer to be assured that the title to the property is clear. Many purchasers have found, as a result of "do-it-yourself" title searching, that they find themselves in the position where they have negotiated with a vendor who was not the owner, or there were other impediments in the title which seriously restricted their ability to use the property as they had contemplated.

5. Check with the municipal office to determine what municipal by-laws have been enacted which would affect the use of the property. Are there minimum lot area and frontage requirements? Are there restrictions on the use to which the land may be put? What are the municipal building requirements — minimum floor area or minimum building cost requirements?

6. Be aware of the commitments associated with the purchase of property. Is the purchase price of the lot the last financial commitment or will you be responsible as a lot owner, for costs of survey, registration, provision of water and sewage services, construction of roads, provision of open space, etc.?

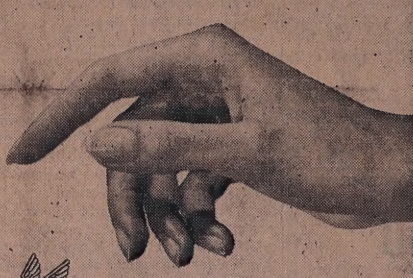

7. Determine what services the Municipality and/or the developer is able to, and will, provide. Who is to provide the roads necessary to secure access to your property? If the area is not suitable for wells who is to construct and maintain the necessary waterworks system? If the soil is not suitable for septic tank operation who is to construct and maintain the sewerage system? Who is to provide fire protection, police protection and other public services?

My Department is presently investigating a number of land development operations with a view, if deemed advisable, to take whatever legal action is necessary in order to protect the public.

Yours very truly,
W. M. NICKLE,
Minister of Planning and Development

Farewell Party For Springbrook Couple

A farewell party was held Friday night in the Orange Hall, Springbrook, for Mr. and Mrs. Burton Bateman who are moving to Stirling soon.

W. J. Barlow acted as master of ceremonies for a programme which included musical selections by Phil Beaudrie, accompanied by Harold Siano; Howard and Terry Hutchison; piano solos by Billy Andrews and Miss Doreen Broadworth; vocal solos by Miss Linda Melkejohn, of Mar-mora, accompanied by Mrs. Sander-son; Miss Linda Wellman and Miss Mariel Mumby; tap dance number by Miss Linda Bailey; reading, by Jeanne Williams, and a vocal duet by Misses Muriel and Shirley McMullen. Burton and Irene were given seats on the platform and an address was read by Jeanne Williams and Percy Bateman presented them with a purse of money.

Mrs. W. J. Barlow expressed appreciation from the Women's Institute and Mrs. James Spry presented a lovely crystal bowl.

Burton and Irene expressed their thanks for the gifts. Lunch was served and a social time spent.

Following is the address:

Dear Burton and Irene:

Your friends and neighbours of the Springbrook community have gathered tonight to express our appreciation for your having been a vital part of our community.

Burton, you have been a life-long resident and Irene, a long time one. The roots which have grown through your church, your lodge and other social groups are very deep. It is with regret that we know that these must be disrupted.

It would be useless, as well as tiresome to list all your good qualities which we already know, so we are going to simply thank you for all you have done for your community.

Thanks for being good neighbours. There are many to whom you have shown sympathy and lent a helping hand. You have shared with those less fortunate and have given help in time of need.

Thanks for hospitality extended in your home. Young and old have enjoyed many good times there.

Thanks for a family — two fine sons — who have been an asset to this community.

Thanks for your fine contribution to the church and all its organization, for Red Cross work, and for participation in all community activities.

It is said that lives have been successful only if they have added something to make this world a better place in which to live. Because we believe that you have helped to do this for our community and because we do not want to say "Good Bye" when we know you will still be very interested in this little part of our world; we want you to accept this gift. We hope it will say in a more tangible way "Thank you for living with us."

Signed on behalf of the community,
